

ABSTRACT 1

ENDERMOLOGIE + NEEDLING + LED:

A WINNING COMBINATION IN THE TREATMENT OF SKIN AGING

Francesco Paolo Alberico

A personal procedure is presented for the treatment of chrono-aging and for biorevitalization and consisting in the combination of endermologie, needling with dermaroller (0.75mm needles), application of a solution containing Vitamin C, Vitamin E and Ferulic acid and LED 880nm and 640nm. Evaluation of the efficacy, tolerance, LED anti-inflammatory effect is carried out through photographs immediately after endermologie, after needling and after LED. Results at the end of the combined program are shown.

ABSTRACT 2

ENDERMOLOGIE + CARBOXYTHERAPY + LED:

A WINNING COMBINATION IN THE TREATMENT OF CELLULITE

Francesco Paolo Alberico

A personal procedure is presented for the treatment of cellulite and consisting in the combination of endermologie, carboxytherapy and LED 880nm. Evaluation of the efficacy is carried out through impedancemetry measurement immediately after endermologie, after carboxytherapy and after LED. Results at the end of the combined program are shown.
